

Product Details

A200

OE-level Scan Tool

Features:

- Works with the latest cars.
- Quick Test function to test most common vehicle systems.
- Performs bi-directional component actuations.
- Supports advanced function such as adaptation and control module coding.
- Key coding for several vehicles.
- Displays freeze frame data.
- Available vehicles: Ford, BMW, Mini, Rolls Royce, Chrysler, Fiat, Abarth, Alfa Romeo, Lancia, GM, Renault, Dacia, Ssang Yong, Mazda, Volvo,
- Ferrari, Peugeot, Nissan, Suzuki, Audi, Bentley, Bugatti, Lamborghini, Seat, Peugeot, Nissan, Suzuki, Audi, Bentley, Bugatti, Lamborghini, Seat, Skoda, VW, VW commercial, Mercedes Benz, Sprinter, Opel, Vauxhall, Honda, Acura, Hyundai, Kia, Porsche, Toyota, Lexus, Scion, Maserati, Citroen, Subaru, Jaguar, Land Rover, Aston Martin, Mitsubishi.
- Gets access to powertrain, chassis and body systems.
- Supports service features like Injector coding, Ajuste Fuel, Gear Learning, Immobilizer Programming, etc.

A100

Good Value

Features:

- Supports more than 10 services, like IMMO, TPMS, Injector coding, etc.
- Gets access to powertrain, chassis, and body systems.
- Supports OBDII 10 test modes.
- One key I/M Readiness.
- Reads live data, get VIN number automatically.
- Displays freeze frame data.
- Records live sensor data.
- Retrieves ECU information.
- Reads continuously & non-continuously monitored system test results.
- On-board monitor test.
- Modules present.
- Performs bi-directional component actuations.
- Data playback.

Product Details

CR800

Features:

- I/M Readiness Hot key.
- Red-Yellow-Green LEDs Indicating Monitor Status.
- 11 Languages.
- Memory Backup for Off-vehicle Review.
- 2.8" High Resolution Color Screen.
- Supports Print Diagnosis Report.
- Works with most 1996 and newer (OBDII & CAN) vehicles, includes light-duty trucks, SUVs, minivans and hybrid.
- Tests and displays the voltage of battery.
- One-click I/M readiness hot keys make it easy to use this tool right out of the package.
- Reads O2 sensor/ on-board monitor test data.
- Automatic VIN acquisition and decoding.
- Supports max. 4 graphic comparassions of data stream.
- Enhanced Mode 6 functions—Non-continuously Monitored Systems test results.
- Retrieves protocol, VIN, Cal ID and CVN identifiers from ECU.
- Reads, records, graphs & playbacks real-time live data streams.

2.8" SCREEN

CR700

I/M One-key Test

Features:

- Works with 1996 to newer OBDII & CAN vehicles.
- Battery test and display data.
- Easy to use with I/M hot key.
- Reads and clears stored and pending codes.
- Freeze-frame data reading.
- Displays live engine data in graph.
- Retrieves VIN, Cal ID and CVN identifiers.
- Reads Generic Data & Monitors.
- Displays freeze frame data.
- Reads and clears trouble codes (DTCs).
- Reads test result of oxygen sensor.
- Reads emission-related permanent DTCs.
- Turns off warning lights.
- Enhanced OBDII Mode 6.
- Free software update.

CR600

Live Data

Features:

- Built-in OBDII DTC library.
- Plug-and-play interface and highly reliable.
- Large LCD screen easy to read.
- No batteries, supply power through detachable OBDII cable.
- Small size and conveniently fits in your palm.
- Reads & clears trouble code: generic codes, pending codes and manufacturer's specific codes
- Reads live data stream.
- Displays I/M readiness status.
- Detects OBDII Freeze Frame Information.
- Retrieves vehicle information (VIN, CID and CVN).
- Built-in OBDII DTC lookup library.
- Built with a large LCD display (128 x 64 pixel) that has white backlight and contrast adjustment, indicates test results directly.
- Shows the fault code directly and explains what the fault code means clearly, no need to search online.

PROFESSIONAL DIAGNOSIS

PRODUCT CATALOG

Features

- Wifi
- Bluetooth VCI
- 8 Hrs lasting battery
- Auto VIN recognition
- Quad-core
- 1280x800 IPS LCD
- 30 Sec boot up
- Solid state drive

Professional Diagnostic System

X-90

Professional Fast Accurate

- 10.1" SCREEN
- IP65
- WIN.10

Features:

- Multitask-capable windows 10 Operating System with 10.1" high-resolution touch screen.
- IP65 rating tablet.
- VCI communication with vehicles within up to 70~100meters.
- OEM-specific coverage for over 80 American, European and Asian makes from 1996 to the latest.
- One-Touch full vehicle code scan.
- Direct Access to the most required special functionalities.

X-60

Advanced Powerful Accurate

- 8.0" SCREEN
- WIN.10

Features:

- Compatible with the latest vehicles.
- Windows 10 stable system, 8" touch screen.
- Reads and clears freeze frame data.
- Access to all systems, including powertrain, chassis and body systems, etc.
- Supports adaptations and control module coding.
- Supports most special service.
- Automatic VIN reading.

Product Details

- Soft silicone buttons
- 47mm Ultra-thin body
- Comfortable handheld design

A550

Features:

- Provides professional diagnosis on more than 80 makes in American, Asian and European.
- Compatible with both OBDI and OBDII vehicles, including the latest models on some makes.
- Reads and clears diagnostic trouble codes (DTC's), Retrieves ECU information.
- Displays freeze frame data, data stream.
- Supports active test.
- Supports all special function for most electronically controlled systems, including Engine, ABS, Airbag, Automatic Transmission, Immobilizer, Adjust Fuel etc.
- Identifies the vehicle testing rapidly and accurately on the basis of its VIN number.
- Shows live vehicle sensors data in text and graph format and allows you to focus on any suspicious or symptom specific data.
- Displays 2 parameter graphs simultaneously and merge them into one coordinate.
- Multilingual menu options—(16 languages).

- 4.3" SCREEN

Powerful Scan Tool

A500

- 4.3" SCREEN

Features:

- Supports 29 special function, like DPF, Immobilizer programming, Adjust Fuel, Injector Coding etc.
- Provides more than 80 American, Asian, China, and European vehicle makes diagnosis.
- Compatible with both OBDI and OBDII vehicles, including the latest 2021 models on some makes.
- Reads and clears Diagnostic Trouble Codes (DTC's).
- Reads system information.
- Displays freeze frame data, read live data.
- Identifies the vehicle testing rapidly and gets VIN number automatically.
- Shows live vehicle sensors data in text and graph format and allows you to focus on any suspicious or symptom specific data.
- Multilingual menu options (4 languages: English, Spanish, German, French).
- 4.3" LCD color display, extremely easy to use with clearly arranged keys and menu driven operation.
- Lifetime free update.

A300

- 4.3" SCREEN

Features:

- Access to ABS and SRS system.
- Supports 23 special function, like DPF, Immobilizer programming, Adjust Fuel, Injector Coding etc.
- Works on the latest vehicle makes.
- Reads and clears codes.
- Turns off the warning indicators.
- Shows live vehicle sensors data in text and graph format and allows you to focus on any suspicious or symptom specific data.
- Displays freeze frame data and data stream.
- You can view 2 parameter graphs simultaneously and merge them into one coordinate.
- Supports active test.
- 4.3" LCD color display, new ergonomic design.
- 3 years free update.
